**BUILDING
STRONGER
SPIRIT &
HEALTH**

allaroundposthealth.com | 281.570.5028

Our mission at at all around Post Health is to build stronger spirit and health by improving the independence of patients and delivering consistent high quality patient care.

Post Health Home Care does not discriminate in provision of services or employment with respect to age, race, color, religion, military status, gender preference, sex, marital status, national origin, disability, or source of payment.

All Around PostHealth

Who We Are

Our agency is a full service home health agency serving the Greater Houston area. Since 2010, our team of health care professionals has provided quality and comprehensive care to patients in the comfort of their own home. We attribute our rapid growth and sound reputation in the health care community to our dedicated and experienced staff.

Where We Stand

We believe in providing exemplary care to all patients. We set our standards above the national and state average for the Quality of Patient Care. We strive to surpass our goals by continually educating our experienced staff and monitoring the quality of care provided to our patients. We have exceeded the Quality of Patient Care standards in all categories set by Medicare* and accreditation agencies.

**Refer to our website for the most recent Home Health Compare report published by Medicare.GOV. This report allows patients to compare different home health agencies against the national and the state averages and against each other in many different categories related to the quality of patient care. Our agency has exceeded the national and the state averages in every category available in the report.*

Where We're Going

We have an ongoing research and development initiative which helps us tailor preventative programs in a way that reduces emergency care and unplanned hospitalizations for our patients. We also help our patients become more independent in managing daily activities and treating symptoms by providing ongoing education to patients, family and caregivers. We seek to inspire the health care industry by demanding higher standards from our own contractors, vendors and business associates.

What We Do

Assessment

Upon request, one of our experienced registered nurses will evaluate any patient for home health eligibility free of charge. The evaluation is done at the patient's home or at the health care facility where they are located. Our nurses use Outcome and Assessment Information Set (OASIS)* for evaluation of all patients regardless of the patient's payer or insurance plan. We guarantee to conduct an assessment to any patient inside our service area within 48 hours. The patient assessment may include:

- Home or environment safety,
- Patient mobility and independence,
- Patient diagnosis, disease and medication profile,
- Additional criteria related to patient care and as specified by the referring healthcare professional.

**This is a data set tool required for assessment of all Medicare patients.*

Plan of Care*

Our Agency will utilize data information gathered during the client assessment in the care planning to identify and treat actual or potential health problems and promotes wellness.

**refer to our website for more information regarding our customized care programs.*

Coordination of Care

Clients with chronic illnesses often need care from numerous doctors, nurses and various professionals across multiple settings of care. Our patients may transition between hospitals, nursing homes, doctors offices and home in order to obtain the services they need. Our staff will coordinate care with our patient's care team to ensure a smooth transition and continuity of care. Coordination of care is key to reducing risk and fostering optimal outcomes. Reassessments are conducted after a change in condition or hospitalization. We compare the patient's status to their baseline date.

Reassessment

Reassessments are conducted after a change in condition or hospitalization. We compare the patient's status to their baseline date.

Discharge Planning

Discharge Planning is a multidisciplinary process that seeks to provide continuity of care that will enable the patient to become as independent as possible. the patient is assisted to develop a plan of care for ongoing maintenance and improvement of healthcare.

Our People

Our clinical staff consist of full-time and part-time employees, as well as independent contractors. We conduct monthly criminal background checks and licensure verifications on our entire staff. Our clinical staff consists of:

- Physicians,
- Registered Nurses,
- Physical Therapists,
- Occupational Therapists,
- Speech Pathologists,
- Medical Social Workers, and
- Home Health Aids.

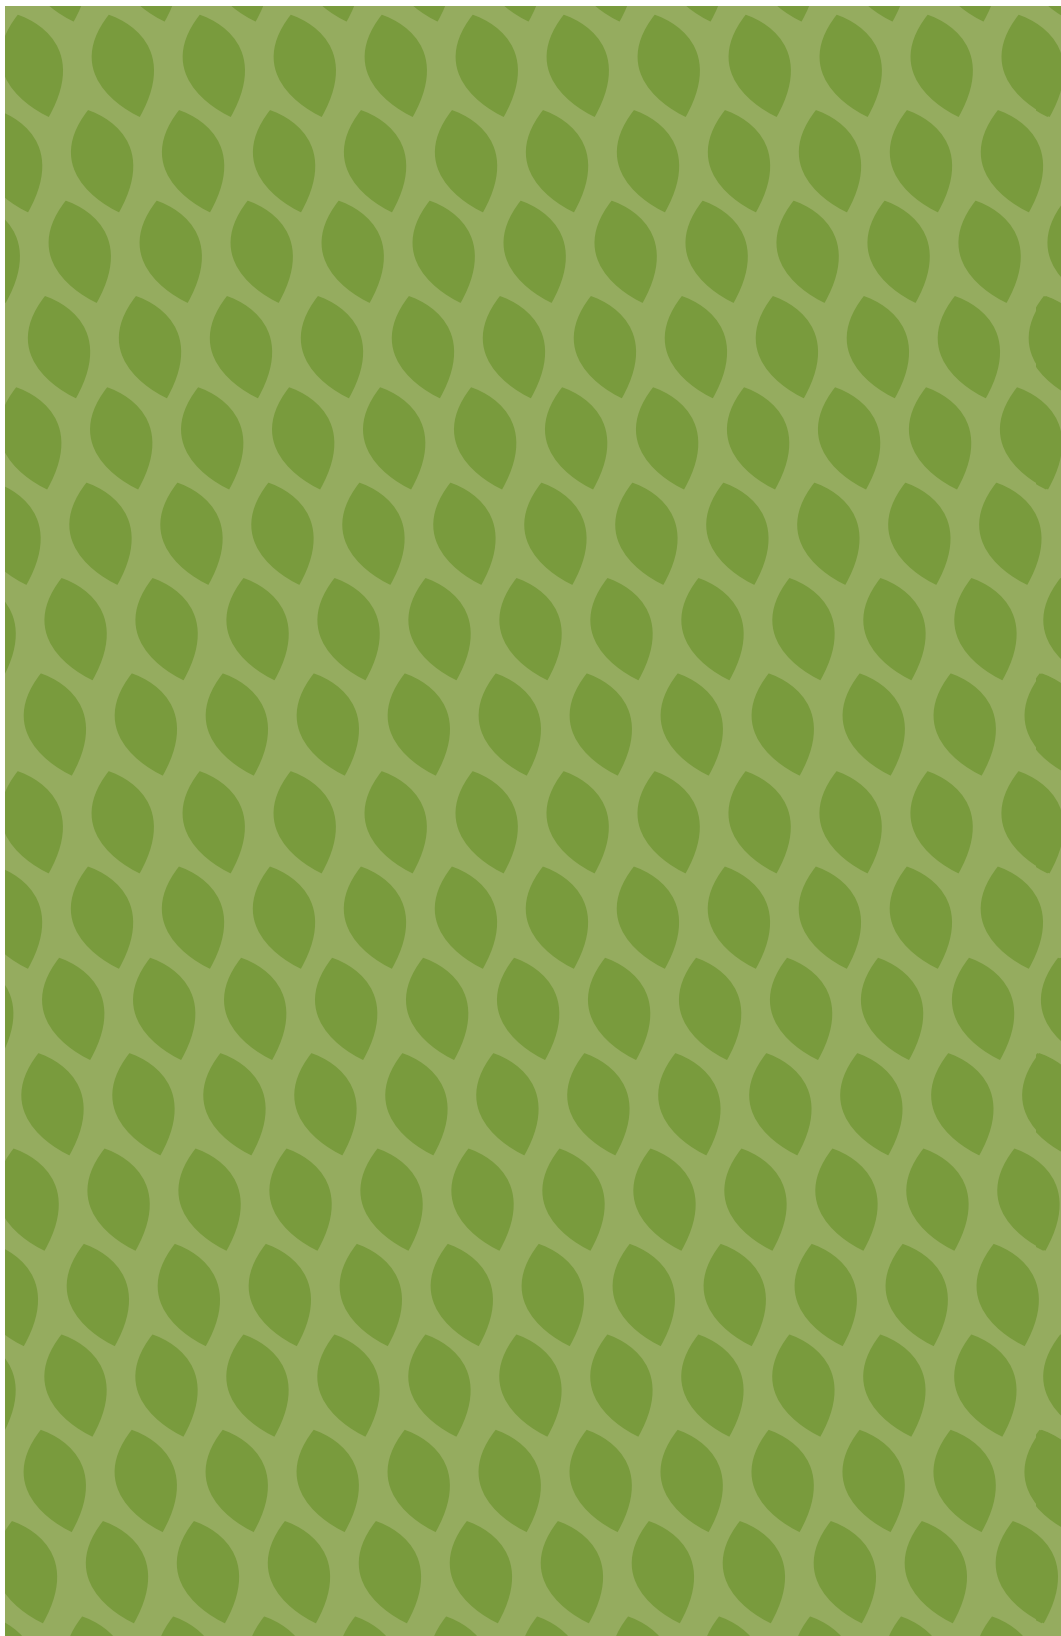

Who Pays

Us We determine the patient's payer and eligibility under any insurance plan as part of the assessment visit. Patients enrolled in traditional Medicare Part A or Part B will be covered completely if Coverage Criteria* is met.

**Refer to our website for coverage criteria.*
